Is your estimated water demand for both inside and outside greater than 271,540 gallons per <b>month</b> , or 10 acre-feet <b>annually</b> ?
NO YES (If yes, answer the following questions on the next page)

## (if yes, answer the following questions on the next page)

- a) Describe any available water conservation training programs that will be offered to employees.
- b) Will alternative water sources be used (for example: effluent, poor quality ground water or other non-groundwater sources)?
- c) What are the operating levels of Total Dissolved Solids or conductivity for cooling towers and total cooling capacity, if applicable?
- d) Describe the water conservation technologies in accordance with process uses (ie; recirculating systems, alternative dust control, etc).
- e) Are there plans for any reuse of wastewater or process water at the facility? If yes, please explain.
- Describe the type of landscape and irrigation system.

If you have any questions, please call the Water Conservation Office at 480-503-6892
